

Nominations for Secretary Position (1):

Aaron Burch

Hey, my name is **Aaron Burch**, and I am a wildlife technician for the Tennessee Wildlife Resources Agency. I primarily work on the southern reservoirs in Middle Tennessee, but also assist the streams and hatchery crews as needed. I first became involved with AFS at Tennessee Tech, where I received my bachelor's degree in Wildlife and Fisheries. I recently became more involved at the professional level as there was a call for extra hands when hosting Southern Division. I served as the Whova App Coordinator, and this past year I served as the Awards and Nominations Committee Chair. I am a fish head through and through and look forward to continuing to serve this awesome Association.
